

DD/ST# 1158-63

**CONFIDENTIAL**

14 AUG 1963

MEMORANDUM FOR: Assistant Director, Office of ELINT

SUBJECT: Evaluation Request for CIA Application  
of [REDACTED] System 25X1A

25X1A

1. [REDACTED] in the Director's office gave me the attached offering recently and asked if we have any application for it. I have read over their little brochure and get the impression that it is a "collision indicator" for mobile forces in a modern and dense electronic ~~forces~~. *environment*

2. Would you get a brief history on this system and suggest any areas in the Agency in which this might prove useful. Do not spend more than one man day on this action.

25X1A

[REDACTED]

ALBERT D. WHEELON  
Deputy Director for Science and Technology

Attachment:  
Brochure

Distribution:  
Orig & 1 - addressee  
2 - DDS&T
